

It has come to my attention that Advocates of a new broadcast service known as Low Power FM (LPFM) are proposing to expand this service in a way that would allow the new LPFM stations to take priority over current FM translator service. If I understand it correctly, my favorite radio station K-LOVE, would be affected by this because K-LOVE is a national and regional broadcaster with many local FM translators used to bring the Positive & Encouraging K-LOVE signal to communities across the nation, and that this may interfere with my receiving the K-LOVE signal.

This is a concern to me because as a resident of the local community, I enjoy K-LOVE's positive and encouraging message on a daily basis. As a christian, I feel it is a staple in my daily life and has become part of my lifestyle.

I also know alot of people in my community and friends and family that also enjoy the positive message brought to the airwaves by K-LOVE. To think that on a day when we are down and need a hand up, we could no longer turn on the radio and hear that positive message is very upsetting to say the least.

I feel that the positive encouraging message that K-LOVE brings to the homes that listen is invaluable. It is good clean, uplifting, wholesome, empowering and also last but not least, irreplaceable. I would definitely recommend that any one with young children make it a permanent number on their radio dial. Actually, I recommend "EVERYONE" listen to K-LOVE. You will be forever changed. Thanks!
